

## LEEK PLANTING PROGRAM

You can plant several varieties of leeks with different maturity dates at the same time and harvest them in succession. Each variety will mature in its appropriate season from a single spring sowing. Faster growing leeks are less cold tolerant, and are harvested first in summer to early fall. Slower growing leeks are more cold tolerant, and will be ready for harvest in fall through early winter (and even longer in milder climates).

Variety	Part #	Harvest Window	Hybrid or OP?
A King Richard	416G <b>OG</b> or 2403	Summer	OP
B Rally	3411G <b>OG</b>	Summer	Hybrid
C Biker	4918	Late Summer/Fall	Hybrid
Megaton	2583	Late Summer/Fall	Hybrid
D Tadorna	2092G <b>OG</b>	Late Summer/Fall	OP
Comanche	4053G <b>OG</b> or 4053	Late Summer/Fall	Hybrid
E Oslo	4939G <b>OG</b>	Late Fall/Winter	Hybrid
Bandit	195G <b>OG</b>	Winter	OP
