100 days. **IR:** PM **OG**

Mambo (F1) Winter Squash Seed
95 days. 🍂 OG

A photograph of three watermelons in a rustic wooden crate. Two whole watermelons with dark green, mottled skin are positioned at the top. In the foreground, a thick slice of watermelon is cut, revealing a vibrant red, seed-filled interior. The crate is lined with a coarse, tan-colored burlap fabric. The background consists of dark, weathered wooden planks.

JuiceBox (F1) Watermelon Seed
70 days. **IR:** F. **OG**

Kalahari (F1) Watermelon Seed
85 days. **IR:** A. **OG**

A bunch of green onions, also known as scallions, is shown lying on a light-colored wooden cutting board. The onions have long, vibrant green stalks and shorter, white bulbous bases. The cutting board is placed on a textured, light brown surface, possibly a burlap mat or a similar fabric. The lighting is bright and even, highlighting the freshness of the vegetables.

Dash (F1) Onion Seed
50 days.

A bunch of green onions with white bulbs, growing on a wooden surface. The onions are arranged in a fan shape, with the green stalks extending towards the top right and the white bulbs towards the bottom left. The wooden surface is made of several planks with visible grain and knots.

Marksman Onion Seed
50 days.

Yago (F1) Onion Seed
55 days. 🌱

Three dark purple, elongated eggplants are arranged diagonally on a rustic wooden surface. The eggplants have a glossy, smooth skin and a slightly tapered shape. The wooden background shows natural grain patterns and some wear. The eggplants are positioned from the top left towards the bottom right, with the longest one at the top and the shortest at the bottom.

Shinkansen (F1) Eggplant Seed
58 days.

Red Tail Bush Bean Seed

55 days. **HR:** BMV, CTM. **IR:** R. **OG**

Troubadour XR (F1) Super Sweet Corn Seed
76 days. **HR:** R. **IR:** NCLB.

Parsley Pea Pea Seed

10 days shoots; 30 days foliage. ✂️
